Let's make things better.

PHILIPS

Picture

Advanced Connectivity

Supports virtually any digital device on the market through a range of connectors including Component Video, S-Video, and video inputs.

Scan Velocity Modulation (SVM)

Proven beam control technology provides clean transitions from light to dark portions of the picture. The result is sharper edges on all images for outstanding clarity and detail.

3-Line Digital Comb Filter

Multipoint Digital Convergence

Remote Control

Universal TV/VCR/DVD/DBS/Cable Remote

Controls all features and functions of this television with direct menu access, plus activates Auto Window™ PIP with Action Freeze, Position and Swap; and exclusive AutoSound™ and AutoPicture™ options. This remote also controls all important operating features and functions of virtually all infrared VCRs, DVDs, Digital Broadcast Systems, and on/off and channel up/down on most cable converter/decoders. (Remote # RC2011/01)

Convenience

Guide Plus+™ GOLD Programming

Hi-tech software that captures and automatically downloads advanced programming information for all television program listings, plot descriptions, ratings, artist names, and program length. The featured channel window displays the current channel or locks in a select channel. Other features include one-touch record, one-touch scheduling, direct-tune, sort-by-theme, and news guide.

Dual-Tuner PIP

Enjoy all the benefits of AutoWindow™ PIP without a VCR! You can tune to your favorite show with tuner one, for example, while scanning other channels with tuner two in the PIP window. The A/V inputs are also available as PIP sources so all functions of standard PIP are still accessible.

PIP Audio

Side A/V Jacks

AutoSurf™

AutoMute™

Component Input

AutoPicture™

AutoChron™

Easy First Time Setup

AutoLock™

Protect young children from objectionable programming with V-chip technology based on the Motion Picture Association of America (MPAA) and the network television rating systems.

Sound

25-Watt dbx® Hi-Fi Stereo Sound System

Experience all the benefits of live entertainment with none of the hassle. Built-in MTS/SAP decoder, bass boost, and individual bass, treble, and balance controls for personal listening preference. dbx® noise reduction eliminates hiss and high-frequency interference (**12.5 Watts RMS per channel into 8Ω, from 50Hz to 20kHz, with no more than 0.5% Total Harmonic Distortion**).

AutoSound™

Center Channel Input
